The Portuguese Confederation  
of Farmers presents:

THE COMMON AGRICULTURAL  
POLICY, AGRICULTURE AND  
HEALTHY EATING

Teacher's  
Guide

2<sup>nd</sup>  
grade

CAP  
AGRICULTORES DE PORTUGAL

Confederation of Farmers of Portugal

## About the project

CAP4ALL is a project developed by the Portuguese Confederation of Farmers and funded by the European Commission.

CAP4ALL objective is very clear: to teach children (between 6 to 12 years old) about what is the Common Agricultural Policy (CAP), how important it is for our European society and how CAP contributes not only to our everyday lives, but also to the planet Earth's future.

## Teachings by the teacher

*Next you will find a summary of suggested contents to teach your students on a 45-minutes class.*

### What is agriculture and why is it important?

The introductory chapter should demonstrate what agriculture is and how important it is to society.

### Common Agricultural Policy (CAP)

Throughout the lesson, it is important to explain how food is made available at affordable prices; how food safety and quality are guaranteed; how is animal welfare promoted; how climate change challenges are being tackled; what is the importance of environmental sustainability; among other equally important topics.

### Main goals

To get to know more about CAP objectives, it is fundamental to fully understand the importance and scope of this European policy. In total, CAP has eight objectives: each of them is recommended to be explained with a simple and clear approach, so that the positive social and environmental impacts of CAP can be clearly perceived.

### Highlighted advantages

As vantagens vêm no seguimento dos objetivos - são o resultado prático do cumprimento dos objetivos a que a política se propõe. É importante salientar quais as vantagens e os benefícios da existência desta política, dando exemplos práticos e comuns a todos.

## Activities for the children

Advantages naturally occur in the sequence of the above-mentioned objectives, as advantages are the result of achieving these defined objectives. Mentioning advantages to your students is crucial to strengthen the consciousness of the benefits of CAP. Furthermore, it is highly recommended to give practical examples of CAP applications on day-to-day life.
